Last year's expansion program, including laying 328 miles of 40 inch loop between Atlanta, Ga., and Greensboro, N.C., and smaller stub line expansions, brought Colonial's capacity up to the present 2,100,000 BPD.

Federally Regulated, Equal Basis

As a common carrier, Colonial pipeline is federally regulated by the Department of Energy and the Federal Energy Regulatory Commission. Colonial's transportation services are available equally to all petroleum products shippers.

The company, which has the largest volume of the 100 petroleum pipeline companies in the nation, currently serves 36 shippers, ten of whom are stockholders. The stockholders include Amoco Pipeline Company, Atlantic Richfield Company, BP Oil Inc., Cities Service Company,, Continental Pipe Line Company, Gulf Oil Corporation, Phillips Petroleum International Investment Company, Texaco Inc., and Union Oil Company, of California.

Colonial provides 15 per cent of the nation's total consumption and 40 per cent of the demand in its marketing area.

Pipeline in Virginia

In Virginia, the pipeline enters the state at Pittsylvania County on the N.C.-Va. line and travels northward through the northwest corner of Halifax, through Campbell, across the northwest corner of Charlotte and the eastern border of Appomattox. Cutting across the northwest corner of Prince Edward, the pipeline runs through Buckingham near Willis Mountain and terminates at the Mitchell Junciton tank farm in Cumberland County.

From there the main line goes north towards the New York Harbour area and stub lines leave Cumberland County to serve consignees in Roanoke, Richmond and the Tidewater areas.

Construction Timetable

Ralph Mitchell noted that bids for construction of the new parallel pipeline will probably go out the first of next month with actual construction beginning sometime in the spring. "All of this depends a great deal on the weather," he said.

Will Nicoll in Atlanta added that, "We intend to start construction of the system in late spring and all the work on the new system should be finished by December. Laying of the line will probably be completed in September."

"When construction starts in late spring, this area (including those portions of Appomattox, Buckingham, Charlotte, Cumberland and Prince Edward which have the pipeline), will see an influx of approximately 225 contractors and Colonial people to carry out the expansion project.

As with any major construction, a certain percentage of the 225 person work force will probably be hired locally.

"Highly skilled persons, pipe fitters and welders for example, are hard to find locally so they will be brought in by the contractors," noted Will Nicoll, "but I suspect that some portion of the construction workers certainly could be hired by the contractors locally."

The 1978 Zone Governor, Horace W. Coleman, Jr., is a year are wrestling, swimming, track and field, gymnastics, and goal ball. For 1980, skiing and power lifting will be added.

In March of 1978 thirteen athletes from Virginia ventured by station wagon and van to Macomb, Illinois to compete in the national competition. Those thirteen athletes brought back twelve medals, four national championships, one worlds record in swimming and a lot of good feelings.

This year USABA-Virginia would like to send thirty athletes to the national games in Seattle, Washington. This takes money. The USABA-Virginia needs your support. It costs $500 to send an athlete for this year's nationals.

Please send in a donation, this will be a very good opportunity to assist blind individuals in an area that has gone undeveloped for too long. The Lions Club will appreciate any and all assistance.

member of the Pamplin Ruritan Club and 1979 Zone Governor, Billy Williamson, is a member of the Cartersville Ruritan Club.

This is a first for the officers of the newly chartered Red House Club. Due to the severe weather conditions, six clubs had no representation at the meeting.

Special recognition was made to some of the clubs for attendance at club meetings and increase in total membership during the 1978 year.

In attendance, the clubs with members present at all regular meetings during the year 1978 were Cartersville with 91 percent, Keysville with 83 percent present, Pamplin with 82 percent, and Oakville with 80 percent present.

In membership, the National Goal for each club was to gain 3 in membership for the year. There were 3 clubs that tied, each with 4 additional members, Keysville, Oakville and Pamplin. Buckingham gained 1 and the other 7 clubs did not gain or lose members. Red House was not included in this contest at this club was just organized.

National Director Jim Yeatts told of the important business to come before the National Ruritan Convention January 25-26-27, in Cincinnatti. Delegates from each club will have an opportunity to vote on the business as presented to the Convention. These delegates will represent the more than 38,000 Ruritans in 37 states.

District Governor Joe Weakley expressed his appreciation of the help given by members of his staff in 1978, with the backing of the 43 clubs in the District. He was sure the 1979 District Governor, Dorman Price, would have the same support. He also made known the fact that with the Red House Ruritan Club, the Appomattox District has received credit for 3 new clubs in 1978. Two other clubs were chartered early in the year. This entitles the District Governor to a special award. The award is highly regarded.

Remarks were made by Cade Holiday about the David Mendenhall Award. It is special for the Appomattox District. Folders describing the award were passed out to the clubs present and an appeal was made to each club to read the folder and try to win the award in 1978. A. David Mendenhall was very active in Ruritan, working to promote Ruritan wherever he went. He helped to charter his club, the Sutherland Ruritan Club, where he served as Treasurer and President as well as a member of the Board of Directors.

He went on to serve as Zone Governor of Zone 1 and when his life ended tragically he was Secretary of the District Cabinet. He encouraged his club and the other clubs in his zone to work to qualify for and seek district and national awards and to participate in activities at the district and national levels. The award was established in his memory and seeks to have clubs do the things he was trying to get the clubs in his zone and others in the Appomatox District to do. This is a new District Award and was given for the first time in 1978.

William (Billy) Williams, the new Zone 3 Governor then took over the program and closed with the Pledge of Allegiance to the Flag.

1978 Forest Fire Summary

The number of forest fires in Southside Virginia's timberlands has been low this year. The number of fires was one-fourth less than the number in 1977, but over the 5 year average number of 132 fires per year.

The Farmville District of the Division of Forestry, covering ten counties in this area, has had 153 fires which burned 471 forested acres, compared to 210 fires covering 772 forested acres in 1977.

Forest Wardens who enforce the forest fire laws reported only 39 violations of the spring 4 P.M. Burning Law. Cooperation from the public in reporting fires and a quick attack by volunteer fire departments, forest wardens and volunteers, kept the average size of the fires to a low figure of 3.1 acres. Volunteer fire departments extinguished many fires before they endangered forest land.

Amelia County had 7 fires burning 5 acres. Appomattox County had 12 fires burning 22 acres. Buckingham County had 19 fires burning 38 acres. Campbell County had 39 fires burning 201 acres. Charlotte County had 11 fires burning 13 acres. Cumberland County had 9 fires burning 2 acres. Lunenburg had 11 fires burning 49 acres. Nottoway County had 7 fires burning 55 acres. Prince Edward County had 12 fires burning 39 acres, and Halifax County had 26 fires burning 47 acres.
